CALL FOR PAPERS

We are happy to announce that the 17th Annual Conference of the International Association for Comparative Mythology is to be held at [Kokugakuin University, Tokyo, Japan](#) on **August 27-30, 2024**. The conference is organized by the IACM in collaboration with Kokugakuin University, Japan. All members are warmly invited to present papers and to participate in the discussions.

This year's conference is dedicated to the 80th birthday of Michael Witzel, the founder and for many years the president of the IACM. The conference will be held in hybrid format: we will accept papers to be presented either in person or virtually by Zoom. The last day of the conference (August 30) will be held entirely online, therefore it will accommodate most of the papers presented virtually.

This year we have the following topics:

1. ***A Special Topic: History of Research and Methodology in Comparative Mythology and Michael Witzel's Contribution to the Field***, including but not limited to the following sub-topics:
 - Work and research methodology of Michael Witzel;
 - Approach, ideas, and methods of specific researchers and schools in the study of mythology;
 - Major categories used in comparative mythology;
 - Archaeology and genetics in the study of mythology;
 - Work of Yoshida Atsuhiko;
 - Critique of comparative mythology, its schools, and methods;

- General history of the field.
2. ***About Japan (in the Eyes of Foreigners): From Gishi Wajinden's Wa People in Yamatai to Marco Polo's Zipangu to Lafcadio Hearn's Kwaidan.***
 3. ***Mythology in Asia***, with a special emphasis on
 - Japanese mythology & comparative study of Japanese myths in the context of the Indo-European and World mythology;
 - Mythology of South Asia, its comparative study and reception in other regions;
 - Mythology and cultural interactions within the Sinosphere.
 4. A "free topic", i.e., any other topic you would like to propose/choose for your paper will be considered.

A list of prospective talks will be published on our website.
